Patient History and Physical

Miss. Nancy & Hedward!@#^& (MDM102)
DOB : 02/01/1988

Chief Complaint: Patient admitted for wound treatment

HPI: Miss. Hedward!@#^& is a 25 year old female with a history of Congetive Heart Failure (428.00) (adfa!@#\$\$%^&*()_+|), COPD (496.00) (adfa!@#\$\$%^&*()_+|), Coronary Artery Disease (414.90) (adfa!@#\$\$%^&*()_+|), Diabetes (250.00) (adfa!@#\$\$%^&*()_+|), DVT (453.40) (adfa!@#\$\$%^&*()_+|), Hospitalizations (adfa!@#\$\$%^&*()_+|), Hyperlipidemia (272.40) (adfa!@#\$\$%^&*()_+|), HyperTension (401.90) (adfa!@#\$\$%^&*()_+|), Myocardail Infarction (410.90) (adfa!@#\$\$%^&*()_+|), Other (adfa!@#\$\$%^&*()_+|), Cardiac Disease (429.90) (asdfadfa!@#\$\$%^&*()_+|), Peptic Ulcer (536.90) (adfa!@#\$\$%^&*()_+|), Peripheral Vascular Disease (443.90) (adfa!@#\$\$%^&*()_+|), Pulmonary Embolism (415.19) (adfa!@#\$\$%^&*()_+|), Venostasis / Chronic Venous Hypertension (459.30) (adfa!@#\$\$%^&*()_+|), who we are seeing for a Wound of the Left Hand, a Wound of the Stomach and a Wound of the Right Arm. Miss. Hedward!@#^& came to our clinic on 11/25/2013.

Significant Events/HPI :

| Wound # | Location | Date First Noticed | Description | Status |
|---------|-----------|--------------------|---|--------|
| 1 | Arm Right | 09/04/2013 | Patient right arm is injured by knife.adfa!@#\$\$%^&*()_+ | Active |

| 599.0 | Urinary Tract Infection Not Otherwise Specified | 12/3/2013 12:00:00 AM |

Family History is significant for : **Bleeding Disorder** (Grandparents, Father, Mother, Siblings,), **Cancer** (Grandparents, Father, Mother, Siblings,), **CHF** (Grandparents, Father, Mother, Siblings,), **Coronary Artery Disease** (Grandparents, Father, Mother, Siblings,), **Diabetes** (Grandparents, Father, Mother, Siblings,), **High Blood Pressure** (Grandparents, Father, Mother, Siblings,), **Kidney Problem** (Grandparents, Father, Mother, Siblings,), **Psychiatric Problem** (Grandparents, Father, Mother, Siblings,), **Seizure** (Grandparents, Father, Mother, Siblings,), **Spherocytosis** (Grandparents, Father, Mother, Siblings,), **Stroke** (Grandparents, Father, Mother, Siblings,), **TB** (Grandparents, Father, Mother, Siblings,)

Social History: The patient is **Married** (adfa!@#\$\$^&*()_+|<>). **Has Children** (adfa!@#\$\$^&*()_+|<>).

Smoking History -Current every day smoker (adfa!@#\$\$^&*()_+|<>).

Alcohol Intake

| Alcohol Intake | Quantity | Frequency |
|----------------|----------|-----------|
| Beer | 2 | Month |

Caffeine Intake

| Caffeine Intake | Quantity | Frequency |
|-----------------|----------|-----------|
| Energy Drink | 67 | Month |

Vital Signs

On Physical Exam, vital signs are , BP **67/66** (Sitting), **66/65** (Standing), **44/67** (Supine), Pulse **78/min**, Respiration **77/min**, Blood Sugar **89 Mg/dL**, Temperature **89 °F**, Height **5'4 Feet**, Weight **78 Kg**, BMI **29.87 Kg/m2**.

Physical Exam**Constitutional** (adfa!@#\$\$^&*()_+|)

The patient has normal judgment, mood, affect and insight

The patient is oriented to time, place and person

Remote and Recent Memory are intact

Eyes (adfa!@#\$\$^&*()_+|)**Ears, Nose, Mouth, and Throat** (adfa!@#\$\$^&*()_+|)

External inspection of ears and nose shows no acute abnormalities

Otoscopic examination of external auditory canals and tympanic membranes shows no acute abnormalities

Hearing is grossly normal

Inspection of lips, teeth, and gums and oropharynx reveals no acute abnormalities

Neck (adfa!@#\$\$^&*()_+|)

Supple with no masses or tenderness

Examination of thyroid reveals no abnormality

No Jugular Venous Distension

Respiratory (adfa!@#\$\$^&*()_+|)

Respiratory effort is normal

Palpation of the chest reveals no gross abnormalities

Auscultation of lungs reveals good air exchange without wheezes, rales, rhonci or stridor

Cardiovascular (adfa!@#\$\$^&*()_+|)

Regular rate and rhythm

Positive S-1 and S-2

No Murmurs or abnormal sounds are heard

Chest (adfa!@#\$\$^&*()_+|)

Palpation reveals no gross abnormalities

Normal inspection and palpation of the breasts

No remarkable axillary lymph nodes

Gastrointestinal (GI) (adfa!@#\$\$^&*()_+|)

Examination of the abdomen. Soft and non-tender, without guarding, rebound, masses or organomegally. No hernias noted (adfa!@#\$\$^&*()_+|)

GI Note (adfa!@#\$\$^&*()_+|)

Rectal: Normal anal sphincter tone and perineum, no rectal masses; stool negative for occult blood (adfa!@#\$\$^&*()_+|)

Genitourinary (GU) (adfa!@#\$\$^&*()_+|)

MALE: Normal scrotal contents and penis

Lymphatic (adfa!@#\$\$^&*()_+|)

Palpation of Lymph Nodes in neck, axillae, and groin reveal no gross abnormalities

Lymphatic notes

Musculoskeletal (adfa!@#\$\$^&*()_+|)

Other than what is documented in the wound assessment, inspection of digits and nails reveals no acute abnormality

Muscle strength and tone of upper and lower extremities reveal no acute abnormality. No joint swelling or effusion

Integumentary (Hair, Skin) (adfa!@#\$\$^&*()_+|)

Other than what is documented in wound assessment, Inspection and palpation of skin and subcutaneous tissue reveals no acute rashes, lesions, or induration

Neurological (adfa!@#\$\$^&*()_+|)

Cranial nerves 2 through 12 are intact

Deep tendon reflexes are symmetrical bilaterally

Normal sensation

Wound Evaluation and Treatment

Wound #1: Patient right arm is injured by knife.adfa!@#\$\$^&*()_+|

The Patient right arm is injured by knife.adfa!@#\$\$^&*()_+| on the Right Arm is Active. There is a moderate amount of exudate in the wound. It is Purulent, Thick, Sanguineous, Serosanguineous, Other (adfa!@#\$\$^&*()_+|), Serous, .The wound margins are Epibole, Flat and Intact, Irregular, Other(adfa!@#\$\$^&*()_+|), Smooth, Thickend with undermining from 1 O' Clock To 2 O' Clock of depth 2cm, and tunneling from 3 O' Clock of depth 2cm. The wound base has Slough, Eschar, Necrotic Tissue, Erythema, Swelling, Warmth, Tenderness. The wound base exposed structure has Fat, Muscle, Tendon, Bone, Joint, Other(adfa!@#\$\$^&*()_+|), .The granulation tissue is Healthy, Hyper Granulation, Texture, Texture Note(adfa!@#\$\$^&*()_+|), Color, Color Note(!@#\$\$^&*()_+sdfsd).

The surrounding skin demonstrates Edema(Note:adfa!@#\$\$^&*()_+|), Induration(Note:adfa!@#\$\$^&*()_+|), BrawnyEdema(Note:adfa!@#\$\$^&*()_+|), Rubor(Note:adfa!@#\$\$^&*()_+|), Maceration (Note:adfa!@#\$\$^&*()_+|), Callous(Note:adfa!@#\$\$^&*()_+|), Friable(Note:adfa!@#\$\$^&*()_+|), Shiny (Note:adfa!@#\$\$^&*()_+|), Rash(Note:adfa!@#\$\$^&*()_+|), Moist(Note:adfa!@#\$\$^&*()_+|), Erythema (Note:adfa!@#\$\$^&*()_+|), Pallor(Note:adfa!@#\$\$^&*()_+|), Cyanosis(Note:adfa!@#\$\$^&*()_+|), adfa!@#\$\$^&*()_+| SkinColor(Note:adfa!@#\$\$^&*()_+|).

Pressure Ulcer Stage : Stage 4.

Wagner Classification : Grade 4.

Procedures

1. **Debridement** was performed on wound number 1, located at the Right Arm by Kevin Peterson, MD. The skin was cleaned with Aloe Vesta 3 in 1 Wash (adfa!@#\$\$^&*()_+ |), Betadine (adfa!@#\$\$^&*()_+ |), Hibiclens (adfa!@#\$\$^&*()_+ |), Saf Clens (adfa!@#\$\$^&*()_+ |), Saline (adfa!@#\$\$^&*()_+ |), Shur Clens (adfa!@#\$\$^&*()_+ |), Soap and Water (adfa!@#\$\$^&*()_+ |). The Debridement was performed using the following tools 10 blade Scalpel, Forceps, Scissor, Nipper, Curette, Rongeur. The Debridement was a Excisional Muscle(11043)
Tissue Removed: Muscle, Bone, Callous, Clots, Eschar, Fat, Fibrin, Hematoma, Necrotic Tissue, Other, Skin, Slough, Sub-Q Tissue, Tendon (adfa!@#\$\$^&*()_+ |)
A Moderate amount of bleeding was controlled with Cautery - Other.
A time-out was conducted prior to the procedure. The procedure was Poorly Tolerated with no pain during the procedure and no pain after the procedure.
2. **Multi Compression Wrap** was performed on wound number 1, located at the Right Arm by Kevin Peterson, MD. A Time-out was conducted prior to the procedure.. The Multi Compression Wrap was a UNNA Boot(29580)
3. **Debridement Nails** was performed on wound number 1, located at the Right Arm by Kevin Peterson, MD. The skin was cleaned with Aloe Vesta 3 in 1 Wash (adfa!@#\$\$^&*()_+ |), Betadine (adfa!@#\$\$^&*()_+ |), Hibiclens (adfa!@#\$\$^&*()_+ |), Saf Clens (adfa!@#\$\$^&*()_+ |), Saline (adfa!@#\$\$^&*()_+ |), Shur Clens (adfa!@#\$\$^&*()_+ |), Soap and Water (adfa!@#\$\$^&*()_+ |). The Debridement was performed using the following tools 10 blade Scalpel, Forceps, Scissor, Nipper, Curette, Rongeur. The Debridement Nails was a Trimming of Healthy Nails(11719)
Tissue Removed: Atrophic, Healthy Nails 1 to 5, Healthy Nails 6 to 10, Ingrown, Onychomycosis, Other, Paronychia, Psoriatic - Onychodystrophy, Psoriatic - Onycholysis, Psoriatic - Pitted (adfa!@#\$\$^&*()_+ |)
A Moderate amount of bleeding was controlled with Cautery - Other.
A time-out was conducted prior to the procedure. The procedure was Poorly Tolerated with moderate pain during the procedure and moderate pain after the procedure.
4. **Biopsy** was performed on wound number 1, located at the Right Arm by Kevin Peterson, MD. The skin was cleaned with Aloe Vesta 3 in 1 Wash (adfa!@#\$\$^&*()_+ |), Betadine (adfa!@#\$\$^&*()_+ |), Hibiclens (adfa!@#\$\$^&*()_+ |), Saf Clens (adfa!@#\$\$^&*()_+ |), Saline (adfa!@#\$\$^&*()_+ |), Shur Clens (adfa!@#\$\$^&*()_+ |), Soap and Water (adfa!@#\$\$^&*()_+ |) and using a Punch , 10 blade Scalpel, Forceps, Scissor, Nipper, Curette, Rongeur. The Biopsy was a Bone biopsy; superficial(20240)
A Moderate amount of bleeding was controlled with Cautery - Bovie.
A time-out was conducted prior to the procedure. The procedure was Poorly Tolerated with no pain during the procedure and no pain after the procedure.
Specimen Sent to Pathology : Yes (adfa!@#\$\$^&*()_+ |)
5. **Skin Substitute** was performed on wound number 1, located at the Right Arm by Kevin Peterson, MD . The skin was cleaned with Aloe Vesta 3 in 1 Wash (adfa!@#\$\$^&*()_+ |), Betadine (adfa!@#\$\$^&*()_+ |), Hibiclens (adfa!@#\$\$^&*()_+ |), Saf Clens (adfa!@#\$\$^&*()_+ |), Saline (adfa!@#\$\$^&*()_+ |), Shur Clens (adfa!@#\$\$^&*()_+ |), Soap and Water (adfa!@#\$\$^&*()_+ |)

^&*()_+|), Hibiclens (adfa!@#\$\$%^&*()_+|), Saf Clens (adfa!@#\$\$%^&*()_+|), Saline (adfa!@#\$\$%^&*()_+|), Shur Clens (adfa!@#\$\$%^&*()_+|), Soap and Water (adfa!@#\$\$%^&*()_+|). The Skin Substitute was a Oasis > 100 cm(15431)

A time-out was conducted prior to the procedure. The procedure was Tolerated Well with moderate pain during the procedure and minimal pain after the procedure.

6. **Incision & Drainage** was performed on wound number 1, located at the Right Arm by Kevin Peterson, MD. The skin was cleaned with Aloe Vesta 3 in 1 Wash (adfa!@#\$\$%^&*()_+|), Betadine (adfa!@#\$\$%^&*()_+|), Hibiclens (adfa!@#\$\$%^&*()_+|), Saf Clens (adfa!@#\$\$%^&*()_+|), Saline (adfa!@#\$\$%^&*()_+|), Shur Clens (adfa!@#\$\$%^&*()_+|), Soap and Water (adfa!@#\$\$%^&*()_+|) and using a 10 blade Scalpel, Forceps, Scissor, Nipper, Curette, Rongeur. The Incision & Drainage was a I&D Abscess, Complex(10061).

Type of Fluid: Hematoma (adfa!@#\$\$%^&*()_+|)

A **Moderate** amount of bleeding was controlled with **Cautery - Other**.

A time-out was conducted prior to the procedure. The procedure was Tolerated Well with minimal pain during the procedure and minimal pain after the procedure. The Wound Was Packed With Iodoform Gauze, Aquacel-Ag Rope, Nu-Gauze, 4 x 4 Gauze, Drain
Culture Sent : Yes

7. **Negative Pressure Wound Therapy** was performed on wound number 1, located at the Right Arm by Kevin Peterson, MDA Time-out was conducted prior to the procedure.. The **Negative Pressure Wound Therapy** was a **Neg. Press Therapy <50 cm(97605)**Initial Application was done.(adfa!@#\$\$%^&*()_+|)Maintenance was done.(adfa!@#\$\$%^&*()_+|)The NPWT type was **KCI VAC - VAC**,The Pressure type was **Continuous**. The Pressure setting was set at 1 mm HG.A adfa!@#\$\$%^&*()_+| sponge type was used,A adfa!@#\$\$%^&*()_+| Drain type was used,

Wound Treatment

| Wound Treatment Note Date: 11/25/2013 | |

MRI Anginogram
MRA Brain(Circle Of Willis) : WithOut Contrast (adfa!@#\$\$^&*()_+|),
MRV Brain(Sagittal Sinus) : WithOut Contrast (adfa!@#\$\$^&*()_+|),
MRA Neck/Carotids : With Contrast (adfa!@#\$\$^&*()_+|),
MRA Abdomen : With Contrast (adfa!@#\$\$^&*()_+|),
MRCP,Renal Artery
MRA Chest/Aorta : With Contrast (adfa!@#\$\$^&*()_+|),
MRA Lower Extremity Run Off : With Contrast (adfa!@#\$\$^&*()_+|),
MRI Extremities / Joints
MRI Shoulder : Left, Right, With Contrast, WithOut Contrast, (adfa!@#\$\$^&*()_+|)
MRI Elbow : Left, Right, With Contrast, WithOut Contrast, (adfa!@#\$\$^&*()_+|)
MRI Wrist : Left, Right, With Contrast, WithOut Contrast, (adfa!@#\$\$^&*()_+|)
MRI Hand : Left, Right, With Contrast, WithOut Contrast, (adfa!@#\$\$^&*()_+|)
MRI Upper Arm / humerus Biceps : Left, Right, With Contrast, WithOut Contrast, (adfa!@#\$\$^&*()_+|)
MRI Forearm/Ulna/Radius : Left, Right, With Contrast, WithOut Contrast, (adfa!@#\$\$^&*()_+|)
MRI Femur/Thigh : Left, Right, With Contrast, WithOut Contrast, (adfa!@#\$\$^&*()_+|)
MRI Lower Leg/Calf/Tib/Fib : Left, Right, With Contrast, WithOut Contrast, (adfa!@#\$\$^&*()_+|)
MRI Hip : Left, Right, With Contrast, WithOut Contrast, (adfa!@#\$\$^&*()_+|)
MRI Knee : Left, Right, With Contrast, WithOut Contrast, (adfa!@#\$\$^&*()_+|)
MRI Ankle : Left, Right, With Contrast, WithOut Contrast, (adfa!@#\$\$^&*()_+|)
MRI Foot : Left, Right, With Contrast, WithOut Contrast, (adfa!@#\$\$^&*()_+|)
MRI Body/Chest
MRI Abdomen (attn) : With Contrast Without Contrast(adfa!@#\$\$^&*()_+|), Adrenal, Kidney, Liver, Pancreas
MRI Pelvis : With Contrast Without Contrast(adfa!@#\$\$^&*()_+|),
MRI Chest : With Contrast Without Contrast(adfa!@#\$\$^&*()_+|),
MRI Brachial Plexus : Left, Right, With Contrast, WithOut Contrast, (adfa!@#\$\$^&*()_+|)
MRI Bilateral Breast : With Contrast Without Contrast(adfa!@#\$\$^&*()_+|),

- **UltraSound**

General Ultrasound
Upper Abdomen Complete - NPO 12 hrs prior (!@#\$\$^&*()_+fgfg),
Abdomen Limited - NPO 12 hrs prior (adfa!@#\$\$^&*()_+|),
Kidneys - Drink 20 oz. water 1 hr prior (adfa!@#\$\$^&*()_+|),
Bladder - Drink 20 oz. water prior (adfa!@#\$\$^&*()_+|),
Prostate - Fleet enema 1 hr. prior (adfa!@#\$\$^&*()_+|),
Breast, BILAT (adfa!@#\$\$^&*()_+|),
Breast, UNILAT (adfa!@#\$\$^&*()_+|),
Aorta - NPO 12 hrs. prior(adfa!@#\$\$^&*()_+|),
Testicles/Scrotum - Doppler(adfa!@#\$\$^&*()_+|),
Extremity - Non vascular(adfa!@#\$\$^&*()_+|),
Thyroid/Neck Soft Tissues(adfa!@#\$\$^&*()_+|),
Echocardiogram
2D ECHO, M MODE, Color Flow With Doppler
Complete (adfa!@#\$\$^&*()_+|),
Follow - up (adfa!@#\$\$^&*()_+|),
Stress Echocardiogram(adfa!@#\$\$^&*()_+|),
Extremities BilateralLeft Right (adfa!@#\$\$^&*()_+|),
Vascular UltraSound
Renal Artery Doppler - NPO 12 hrs. prior(adfa!@#\$\$^&*()_+|),
Carotid(adfa!@#\$\$^&*()_+|),
Carotid Doppler(adfa!@#\$\$^&*()_+|),
Venous Doppler(adfa!@#\$\$^&*()_+|),
Pelvis/OB UltraSound
Pelvis non OB, TV is neccessary(adfa!@#\$\$^&*()_+|),
Trans Vaginal - No Prep(adfa!@#\$\$^&*()_+|),
Pregnancy Complete > 14 weeks(adfa!@#\$\$^&*()_+|),
Biophysical profile(adfa!@#\$\$^&*()_+|),
Pregnancy Limited(adfa!@#\$\$^&*()_+|),

Trans Vaginal for Pregnancy - No prep(adfa!@#%^&*()_+|),
Pheriperal Arterial Studies
BilateralLeft Right (adfa!@#%^&*()_+|),

- **Mammography**

Screening(!@#%^&*()_+fgfg),
Routine, baseline, Asymptom(adfa!@#%^&*()_+|),
High Risk Codes : Family HX(adfa!@#%^&*()_+|),
Symptomatic : Describe mass,lump, pain, thickening, nipple changes, skin changes, Nipple retraction or
crusting, Infection(adfa!@#%^&*()_+|),
6 months Follow-up exam(adfa!@#%^&*()_+|),
History Of Breast Cancer(adfa!@#%^&*()_+|),
Fibrocystic Changes(adfa!@#%^&*()_+|),
Diagnostic : Bilateral, Unilateral, Left, Right (adfa!@#%^&*()_+|),

- **Nuclear Medicine**

Bone Scan(!@#%^&*()_+fgfg),
3 - Phase Bone scan(adfa!@#%^&*()_+|),
RBC Liver/Spect(adfa!@#%^&*()_+|),
Hida Scan - W/EF(adfa!@#%^&*()_+|),
HidaScan - Nothing to eat or drink after midnight(adfa!@#%^&*()_+|),
Thallium Stress Test(adfa!@#%^&*()_+|),
Persantine Stress Test(adfa!@#%^&*()_+|),
Parathyroid(adfa!@#%^&*()_+|),
Muga(adfa!@#%^&*()_+|),
IDIUM/CERETEC(adfa!@#%^&*()_+|),

- **General Radiology**

Abdomen(!@#%^&*()_+fgfg),
Abdomen, 2 Views(adfa!@#%^&*()_+|),
Abdomen Series(adfa!@#%^&*()_+|),
Chest PA/Lat(adfa!@#%^&*()_+|),
Paranasal Sinuses(adfa!@#%^&*()_+|),
Pelvis(adfa!@#%^&*()_+|),
S1 Joints(adfa!@#%^&*()_+|),
SACRUM COCCYX(adfa!@#%^&*()_+|),
Spine, Cervical(adfa!@#%^&*()_+|),
Spine, Lumbar(adfa!@#%^&*()_+|),
Spine, Thoraicic(adfa!@#%^&*()_+|),
Other(adfa!@#%^&*()_+|),
Ankle : Left, Right (adfa!@#%^&*()_+|),
Clavicle : Left, Right (adfa!@#%^&*()_+|),
Elbow : Left, Right (adfa!@#%^&*()_+|),
Femur : Left, Right (adfa!@#%^&*()_+|),
Foot : Left, Right (adfa!@#%^&*()_+|),
Forearm : Left, Right (adfa!@#%^&*()_+|),
Hand : Left, Right (adfa!@#%^&*()_+|),
Oscalcis : Left, Right (adfa!@#%^&*()_+|),
Hip : Left, Right (adfa!@#%^&*()_+|),
Humerus : Left, Right (adfa!@#%^&*()_+|),
Knee : Left, Right (adfa!@#%^&*()_+|),
Ribs : Left, Right (adfa!@#%^&*()_+|),
Shoulder : Left, Right (adfa!@#%^&*()_+|),
TIB/FIB : Left, Right (adfa!@#%^&*()_+|),
Wrist : Left, Right (adfa!@#%^&*()_+|),

- **Lab test Orders**

Albumin(!@#%^&*()_+fgfg),
CMP(adfa!@#%^&*()_+|),
Pre-Albumin(adfa!@#%^&*()_+|),
CRP(adfa!@#%^&*()_+|),

B-12(adfa!@#\$\$^&*()_+|),
TIBC(adfa!@#\$\$^&*()_+|),
BMP(adfa!@#\$\$^&*()_+|),
HgA1C(adfa!@#\$\$^&*()_+|),
CBC(adfa!@#\$\$^&*()_+|),
Homocysteine(adfa!@#\$\$^&*()_+|),
Zinc(adfa!@#\$\$^&*()_+|),
Culture(adfa!@#\$\$^&*()_+|),
Other(adfa!@#\$\$^&*()_+|),

Diagnosis

997.60 : Amputation, stump complication unspecified(adfa!@#\$\$^&*()_+|)
250.60 : Diabetes w/ neurological manifestation(adfa!@#\$\$^&*()_+|)
682.00 : Cellulitis or Abscess, Other(adfa!@#\$\$^&*()_+|)
730.17 : Chronic osteomyelitis involving ankle and foot(adfa!@#\$\$^&*()_+|)
0.00 : Other
730.11 : Chronic osteomyelitis involving shoulder region(adfa!@#\$\$^&*()_+|)
990.00 : Effects of radiation, unspecified(adfa!@#\$\$^&*()_+|)
454.00 : Varicose veins w stasis ulcer(adfa!@#\$\$^&*()_+|)

- **Physical Therapy**

Physical Therapy

Evaluation and Treatment(!@#\$\$^&*()_+fgfg),
Postural/Body Mechanics Instruction(adfa!@#\$\$^&*()_+|),
Exercise(adfa!@#\$\$^&*()_+|),
Joint Mobilization(adfa!@#\$\$^&*()_+|),
Home Instruction(adfa!@#\$\$^&*()_+|),

Modalities

Ultrasound(!@#\$\$^&*()_+fgfg),
Electrical Stimulation(adfa!@#\$\$^&*()_+|),
Phonophoresis(adfa!@#\$\$^&*()_+|),
Cold Pack(adfa!@#\$\$^&*()_+|),
Moist Heat(adfa!@#\$\$^&*()_+|),
Massage(adfa!@#\$\$^&*()_+|),
TENS(adfa!@#\$\$^&*()_+|),

Frequency : Daily

Duration : 3

Note : !@#\$\$^&*()_+fgfg

Gait Training

Non weight Bearing : Left, Right(adfa!@#\$\$^&*()_+|),
Toe Touch Only : Left, Right(adfa!@#\$\$^&*()_+|),
Partial Weight Bearing : Left, Right(adfa!@#\$\$^&*()_+|),
Full Weight Bearing : Left, Right(adfa!@#\$\$^&*()_+|),

- **Other**

Orthotics/Foot-Wear(!@#\$\$^&*()_+fgfg)
Offloading Surface(adfa!@#\$\$^&*()_+|)
Nutritional/Dietary(adfa!@#\$\$^&*()_+|)
Home Nurse Visit(adfa!@#\$\$^&*()_+|)
Compression Therapy(adfa!@#\$\$^&*()_+|)
Wound Care Instructions(adfa!@#\$\$^&*()_+|)
Activity(adfa!@#\$\$^&*()_+|)
Other(adfa!@#\$\$^&*()_+|)
